record highs, the prospect of gains is dimming across the board. AQR Capital Management estimates ... 'Their house is on fire': The pension crisis sweeping the ... Long-term investors are attuned to the thought that risk is rewarded. By making an investment with more potential variation in returns, investors demand a risk premium – the expected return in excess of a comparatively risk-less investment. This is particularly espoused in the long-term investments of pension funds, yet is a reductive view of financial markets.
