context, and includes material from a wide geographic range and a variety of perspectives. Assembly Rules and Restoration Ecology: Bridging the Gap

... Restoration ecology is the scientific study supporting the practice of ecological restoration, which is the practice of renewing and restoring degraded, damaged, or destroyed ecosystems and habitats in the environment by active human intervention and action. Effective restoration requires an explicit goal or policy, preferably an unambiguous one that is articulated, accepted, and codified. Restoration ecology - Wikipedia Community assembly theory suggests that because it's random chance which species will arrive in
