mammogram. Breast Ultrasound |
Ultrasound for Breast Cancer Breast
ultrasound is an important modality
in breast imaging. It is the usual
initial breast imaging modality in
those under 30 years of age in
many countries ref. In assessing for
malignancy, it is important to
remember that one must use the
most suspicious feature of three
modalities (pathology, ultrasound
and mammography) to guide
management. Breast ultrasound |
Radiology Reference Article
... Ultrasound imaging of the breast
uses sound waves to produce
pictures of the internal structures of
the breast. It is primarily used to
help diagnose breast lumps or other
abnormalities your doctor may have
found during a physical exam,
mammogram or breast MRI.

Ultrasound is safe, noninvasive and does not use radiation. Breast Ultrasound - RadiologyInfo.org A breast MRI uses radio waves and strong magnets to make detailed pictures of the inside of the breast. For a breast MRI, you will lie face down inside a narrow tube for up to an hour. The test can be uncomfortable for people who don't like small, enclosed spaces, but should not be painful. If You're Called Back After a Mammogram Performing supplemental ultrasound after normal mammograms on 10,000 women with dense breasts, ages 50 to 74, every year would prevent about four breast cancer deaths, he said. Are Routine Ultrasounds for Women With Dense Breasts ... A breast ultrasound uses high-

1e

frequency sound waves to create an image of your breasts, and the procedure entails the following: You'll be asked to undress from the waist up and put on a hospital gown. Screening for Breast Cancer: Mammogram vs. Ultrasound An ultrasound transmits high-frequency sound waves through breast tissue from a hand-held unit called a transducer. These sound waves bounce off of breast tissues and create an "echo." The echo is recorded by a computer that makes an image of the breast tissue and displays it on a monitor. Screening for Women With Dense Breasts Breast Ultrasound: Uses, Procedure, Results Breast Ultrasound is especially powerful in combination with the registry-like mock exam Breast Sonography
