ASME B31.3 Process Piping Guide - Los Alamos National ... Power piping is governed by ASME B31.1. Process piping means piping systems and their component parts, that are not

building services or power piping systems, and that may be installed in petroleum refineries, chemical, pharmaceutical, textile, paper, semiconductor, and cryogenic plants, and related processing plants and terminals. Process piping is governed by ASME B31.3. Hope this helps. What is process piping and power piping? - Quora Design of Boilers and Power Piping □ASME Code Section I (Power Boilers) can be thought of as a “System Code Section” and includes by reference, ASME B31.1 (Power Piping) with specific rules for Boiler External Piping.
