Mathematics, ... MATH PROBLEM OF THE MONTH -
Bilkent University The Problems of the Month are non-
routine math problems designed to be used school-
wide to promote a problem-solving theme at your
school. Each problem is divided into five levels of
difficulty, Level A (primary) through Level E (high
school), to allow access and scaffolding for students
into different aspects of the problem and to stretch
students to go deeper into mathematical
complexity. Problems of the Month | Inside
Mathematics Explanation: Diminishing balance
depreciation method is one of the three depreciation
methods that mention in IAS 16. This kind of
depreciation method is said to be highly charged in the
first period, and then subsequently reduce. This is
because the charging rate is applying to the Net Book
