State Mining Claim Mtrsc
Location In 2000 the State of Alaska enacted mining law changes to establish a new mining claim located on the basis of legal description called an MTRSC (meridian, township, range, section and claim) location. The law created two sizes of MTRSC locations: $\frac{1}{4}$ section (~160 acres), and $\frac{1}{4}$ - $\frac{1}{4}$ section (~40 acres). Although located by legal description, MTRSC locations still require posting of the claim corners on the ground, which ultimately control the actual claim location and mineral rights acquired. Fact Sheet Mining claims may be located by what is know as aliquot part legal description, which is meridian, township, range,

section, quarter section, and if applicable quarter-quarter section. These claims are known as MTRSC locations, and they are generally located using GPS latitude and longitude coordinates. Mineral Property Management - Div. of Mining, Land, and Water mining claims. Prospecting sites will be depicted in the legal MTRS (meridian, township, range and section) subdivision system in DNR's LAS (Land Administration System) status plats and database as protracted quadrants. In other words, MTRSC prospecting sites will be located in the records in only one township, Fact Sheet STATE OF ALASKA The State's MTRSC system uses the Public Land Survey subdivisions to describe the location of mining claims. Most

The law created two sizes of MTRSC locations: $\frac{1}{4}$ section (~160 acres), and $\frac{1}{4}$ - $\frac{1}{4}$ section (~40 acres State Mining Claim Mtrsc Location Certificatenotice 37323 In 1989, the State of Alaska enacted a mineral

location. Annual Rental Law. , Alaska Statute 38.05.211, which requires locators and holders of State mining locations to pay an annual cash rental. The Annual Rental requirement applies to mining claims, leasehold locations, upland mining leases, offshore mining leases and prospecting sites on State land. ANNUAL RENT MINING CLAIMSA mining claim is a parcel of land for which the claimant has asserted a right of possession and the right to develop and extract a discovered, valuable, mineral deposit. This right does not include exclusive surface rights (see Public Law 84-167). There are three basic types of minerals on federally-administered lands: locatable, leasable, and salable. Mining Claims | Bureau of

Land Management During 2003, we purchased seven traditional mining claims, which had been re-staked as State of Alaska mining claims from the Anderson Partnership for \$35,000. In September of 2003, we staked fifty-five 160-acre MTRSC (meridian, township, range, section, and claim location system) state mining claims. Goldrich Mining Company - SEC Leasehold locations are staked in the same manner as a regular state mining claim (See Fact Sheets for MTRSC Locations (New Mining Locations), Staking Requirements for mineral Locations on State Land, and Mineral Locations (Claims) and the Rights Acquired). However, when a person stakes a new location in a leasehold location area the location is not a mining claim, but a leasehold

location. The leasehold location must be Fact Sheet Individual land buyers, lessees of state land, or permittees who are unable to make their payments should immediately contact the Division of Mining, Land and Water (DMLW) to discuss ways to address their financial hardship and payments due, consistent with the Governor's COVID-19 Disaster Order of Suspension No. 2 as amended, or the Director's Finding concerning extensions of certain land ...
